SOUTH ALBURGH FIRE DISTRICT NO. 2
ENGINEER'S UPDATE
MUNICIPAL CONFERENCE ROOM & GOOGLE MEET
Monday, June 13, 2022 at 6:30 PM

Present: Tony Speranza, John Fitzgerald, Danielle James Choiniere, Tom Jacobsen, Mallory Ovitt, Alton Bruso and Charles Mackin, Richard Ernst and Galen Hagen on computer

Meeting opened at 6:30 PM—not a normal regular meeting as it was hosted by engineer Galen Hagen.

PHASE II DISCUSSION

Engineers had tweaked easement maps to have more color coding and it was more helpful. The board how much 'wiggle room' the lines had and Galen said about 5 feet give or take. Tom Jacobsen asked about how near to utility poles the line could be—Galen answered pretty close, they can be temporarily shored up. Tom asked if poles could be moved and the answer was they would have to be new. An alignment boundary was fixed showing it ran through a house. Ridding the plans of the stub line on Cedarvale was suggested since the region isn't going to be putting their own line in any time soon. Plans tried to go around mature trees and other impacts whenever possible. Roads are usually preferable to dig into.

Topics of shared trenches put not shared pipes were discussed to try and facilitate people connecting through ledge. The board may approach the Point of Tongue Homeowner's Association to ask about a blanket easement.

Galen planning to come up to Alburgh in person on 6/29 at 9 AM.

Tom Jacobsen took several photos which would be helpful in incorporating into property files. Danielle to look into.

Mallory Ovitt spoke with the board members about easement administrator duties.

Meeting adjourned at 8:09 PM.

Respectfully submitted,
Danielle James Choiniere

These minutes are draft only, not slated for approval until the next regular board meeting in June.
