Chairman's Report:

Paul Hansen presented his Chairman's Report, June 2014-May 2015, announcing that the SAFD#2 has progressed from a committee planning to distribute water within the district to a permitted water producer in the State of Vermont. Much administrative activity occurred in the summer of 2014 as an operating procedures agreement was made with the Village of Alburgh, base water rates were determined by the Board, and the Water Ordinance was completed. On July 29, 2014 SAFD#2 received a Permit to Operate from the State of Vermont. The system was given the go-ahead to provide water to customers after it passed bacteriological testing requirements in August. Several customers connected during the end of the summer and the fall months. Over the winter the District experienced some brief boil water notices due to problems from low water usage. In February a leak occurred in the Mud Point water main, which was repaired, as was another leak which occurred in the water main on the West Shore Rd. in May. Consumer Confidence Reports were mailed to customers on May 27, 2015. SAFD#2 is currently in need of interested persons to fill officer's positions.

There were no questions.
