

RESOURCES

The following resources are provided as guidance for property owners as they solicit the work needed to complete their water hookup. These contractors and suppliers are familiar with the project and in several cases were used during Phase I of this project. The Prudential Committee does not endorse or specifically recommend one service company over another. Fees and prices have not been guaranteed, so we strongly encourage property owners to solicit competitive bids for the specifics related to each property. Contractors or service firms not represented here may become authorized by contacting John FitzGerald or Alton Bruso of the SAFD2 Prudential Committee.

Prudential Committee

The 5-member Prudential Committee is the governing body overseeing this effort and representing the municipality of South Alburgh. Inquiries can be submitted to safdcommitte@gmail.com. The SAFD2 website is www.safd2.org.
